School Improvement Priorities

*'To prepare our children for
a happy future'*

OCTOBER 2022

Aims of the session:

- To give parents an understanding of the purpose of the School Improvement Plan
- The key priorities that the school have planned for
- The involvement of all stakeholders in school priorities and the context of plans
- Questions

School Improvement Plan

What is the purpose of the school improvement plan?

A School Improvement Plan (SIP) is:

- a road map that establishes the changes that the school needs to improve student achievement and shows how and when these changes will be made
- a timed education development plan that embodies the vision and mission of the school.

School priorities?

Vaughan has a three-year School Improvement plan. All plans are subject to amendment and changes may happen linked to internal or external factors.

Although the plan may run for three to five years - each year priorities may come on or off the plan depending on the timescales set or changes in the educational landscape.

The priorities identified are strategic and are linked to long term visions and goals for the pupil community and incorporate whole groups of the school community. This is then filtered down operationally to the day to day running and overall effectiveness of the school. What it isn't, is a personal plan for each child. This is done through other forms of monitoring and self evaluation at the school.

School priorities and stakeholder involvement?

KEY PRIORITIES 22-23:

Safeguarding

Mental Health and Wellbeing

SEND/Vulnerable pupils

Teaching and Learning

Curriculum – including Digital curriculum

Time for Change – Diversity in the curriculum

Maths Mastery

Phonics

Reading, Writing, Maths (GDS)

EYFS

Leadership Development

Governance – succession

Global responsibilities and sustainability

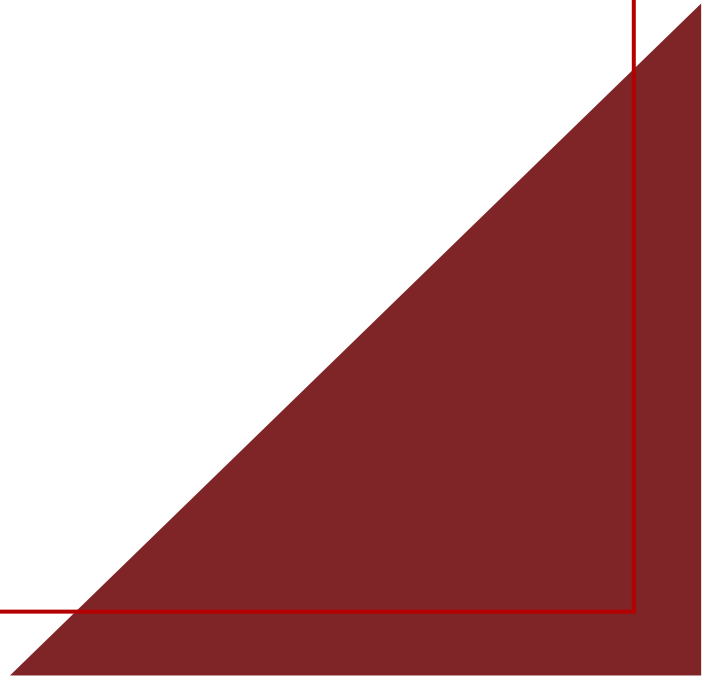

Where to find the School Improvement Plan?

The plan can be found on the school website [Your headline here \(vaughan.harrow.sch.uk\)](#) and is currently under review while priorities are reviewed, and possible new ones are identified moving forward for this academic year and beyond. The revised plan will appear on the school website and parents will be informed. This will also contain the school's statutory data set as published by the DFE.

QUESTIONS?
